MICHIGAN AGRICULTURE

Contributes \$73 billion to Michigan's economy annually

Agriculture is the state's second largest production sector behind the automotive industry.

The agriculture industry ranks second, just behind California, for the state with the most diverse agriculture industry in the nation (200+ agricultural commodities)

Employs about 1 million people, or nearly 24% of Michigan's entire work force.

U.S. AGRICULTURE

98% of U.S. farms are individually or family-owned.

A U.S. farmer feeds 143 people across the country and abroad.

Farmers are good caretakers of the land and livestock that provide our livelihood.

The U.S. has the safest food supply. U.S. agriculture is the most efficient in the world thanks to innovation, technology, and farmers who care.
