Nature’s Toothbrush

Grade Level: K-3

Approximate Length of Activity: 30 Minutes

Objectives

Teacher
1. Describe the nutritional value of apples.
2. Help students understand that apples benefit their teeth and their bodies.

Students
1. Compare the cleanliness of their teeth after eating lunch and after eating an apple.
2. Correlate characteristics of apples and health benefits of eating apples.

Michigan Content Standards: (Health) Kindergarten - Strand 5 - Standard 1-5.1; First Grade - Strand 5 - Standard 1-5.1; Second Grade - Strand 1 - Standard 3-1.5; Third Grade - Strand 1 - Standard 1-1.1

Introduction
The apple is called “Nature’s Toothbrush” because it helps clean the teeth and massage the gums. The crisp juicy flesh of the apple brushes and cleans the teeth while you eat it. The juice swishes and washes particles out from between the teeth, helping to prevent tooth decay. The natural vitamins and minerals and sugars in the apple are all good for your teeth and your body. Keep your teeth bright and clean by regular brushing and eating lots of crisp and juicy Michigan apples.

Materials Needed
- Apples
- Accompanying worksheets

Activity Outline
1. After lunch, have students feel their teeth with their tongues.
2. Ask them to describe what they feel (“fuzzy”).
3. Have students eat a section of an apple.
4. Have students feel their teeth with their tongues.
5. Ask them to describe what they feel (“smooth”).
6. Have students complete the accompanying worksheets.
Discussion Questions
1. Discuss why an apple is better for you than a candy bar.
2. Compare the nutritional value of various apple products and recipes that use apples.

Related Activities
1. This lesson was provided by the Michigan Apple Committee. For more activities contact the Michigan Apple Committee 13105 Schavey Road, Suite 2, DeWitt, MI 48820, 800-456-2753 www.MichiganApples.com
2. Make an apple nutrition chart.
3. Research the nutritional value of an apple and tell what each vitamin and mineral does for your body.
4. Compare the nutritional value of various apple products and recipes that use apples.
5. Have students write a rap with an ‘apples are good for you’ or ‘eat an apple a day’ theme.
6. The lesson “Apple Math” located in the math section of this curriculum guide.
7. The lesson “The Apple Tree” located in the language arts section of this curriculum guide

A Dozen Good Reasons to Eat Apples

Apples are a very good fruit for building healthy bodies. What health benefit is the result of each of the apple claims?

1. Has no cholesterol and no artificial colors—heart healthy.
2. Supplies vitamin A—good vision, bone and tooth development.
3. Contains almost no fat—helps reduce the risk of cancer and heart disease.
4. Is an important source of potassium—may help control high blood pressure.
5. Contains pectin and is a good source of dietary fiber—helps reduce cholesterol.
6. Has only 80 calories—"filling but not fattening", nutrient dense.
7. Is sodium-free—helps reduce the risk of high blood pressure.
8. Is a great thirst quencher—a medium-size apple contains 4 ounces of water.
9. Contains natural sugar called fructose—provides quick energy for activity.
10. Is high in complex carbohydrates—may lower risk of cancer, heart disease and diabetes.
11. Is "Nature's Toothbrush"—helps reduce tooth decay, cleans and massages gums.
12. Has low acid content—apple juice is well accepted by infants and people with sensitive digestion.
