Program Criteria: Involvement

The key to a strong county Farm Bureau is active involvement from a variety of members, instead of a select few. This involvement award category will focus on your county Farm Bureau's ability to involve the maximum number of members in your programs and activities. It will focus on both the total number of members involved and the percentage of members that performed a volunteer activity, such as participating in a legislative event, promotional activity or young farmer event. The key to this category will be; involving a larger percentage of membership & identifying new regular members to become active in a Farm Bureau activity.

Based on county reported numbers for the 2023-2024 program year, we will evaluate the following criteria:

- Percent of regular members involved (50 pts)
- Percent of newly involved members (25 pts)
- Percent of young farmer's actively involved (25 pts)

To be eligible for the award, counties must have a full board of directors, and all committees. This must be reviewed and updated in iMIS prior to the application submission.

Judging

1. No application will need to be submitted. Numbers will be taken from the iMIS database. Be sure all program event attendance is updated prior to July 1, 2024.
2. District & State Level Awards: Three MFB staff will analyze data from involvement to determine winners.

MFB Involvement Definition
