DISCUSSION MEET CONTEST SCORESHEET AND RUBRIC 13

What is a Discussion Meet?

The Discussion Meet is a contest sponsored by the MFB State Young Farmer Committee at the District and State level. The Discussion Meet Contest is sponsored by the AFBF Young Farmers and Ranchers Committee at the National Level. The Discussion Meet, started in 1948, is designed to replicate a committee meeting where participants explore an agricultural topic and ways to address it.

This competition is evaluated on an exchange of ideas and information on a pre-determined topic (page 12). Participants build basic discussion skills, develop a keen understanding of important agricultural issues and explore how groups can pool knowledge to reach consensus and solve problems.

The discussion should not be “conversation” or aimless talk, nor should the participant take the role of a persuasive speaker. The participant should attempt to cooperatively shed further light on the problem and tentatively retain a flexible position. A successful participant is a productive thinker, rather than an emotional persuader, who is free to state beliefs and change positions whenever new information and ideas make that a reasonable thing to do.

Finally, this is not a panel symposium where each participant, in turn, makes a presentation, with the moderator ending the session with a summary. Rather, it is an exercise in cooperative problem solving, with the questions, answers and statements coming from any participant at any time.

The discussion should follow these steps:

1. State the problem or need.
2. Explore, define and understand the problem or need.
3. Identify causes of problem or need.
4. Elaborate on alternative solutions.
5. Evaluate and compare alternatives.
6. Test and project what appears to be the best solution.
7. Arrive at ways to implement the solution.

Purpose of a Discussion Meet

The strength of Farm Bureau is largely in its ability to involve members in analyzing their agricultural problems and deciding on solutions which best fit their needs. Experience has proven the Discussion Meet will provide an opportunity for greater participation on the part of young, active farmers. It will help them develop a greater command of basic discussion skills. They will acquire a better understanding of how people can think in groups for the sake of better understanding solutions to problems.

As a leadership training and self-improvement device, the Discussion Meet experience will:

1. Stimulate logical thinking and a desire for accurate information.
2. Develop a concise and convenient manner of speaking.
3. Develop the ability to listen.
4. Help the participant overcome timidity or stage fright.
5. Assist the individual in learning to give and receive criticism in a gainful manner.
6. Teach the value of compromise.
7. Develop leaders for effective problem-solving through group discussion.

Parts of a Discussion Meet

The contest itself involves a moderator and competitors. The moderator's responsibility is to introduce the topic and the competitors start the discussion, keep it on track and see that no one monopolizes the time.

During each round, competitors will participate in the three parts of a discussion meet contest: the opening statement, body of discussion, and the closing statement.

1. The opening statement is 30 seconds. The statement should be broad in scope, show relevancy, and importance of the topic.
2. In all rounds of the competition, the body of the discussion will last 20 minutes (district competitions may range from 15-20 minutes at the timekeeper's discretion). During the body of the discussion, competitors will provide background and perspective on the topic, discuss why it is an issue, elevate potential solutions to address the issue, and identify organizational opportunities for Farm Bureau and its members to engage.

3. The closing statement is given at the end of the body of the discussion. Competitors will be given one minute of quiet time to develop closing statements. Closing statements should summarize the body of the discussion and identify future opportunities. The closing statements are one minute or less and should not be "canned."

Scoring

Competitors will be scored in six areas:

1. OPENING STATEMENT (10 points): Defines problem; conveys importance and relevance; sets the stage for an interesting discussion; clear point of view; uses time wisely.
2. ANALYSIS OR TOPIC OR PROBLEM (20 points): Has thoroughly researched topic; builds on the ideas of others to help achieve coherent analysis; asks relevant questions; helps ensure thorough analysis before problem solving; aware of relevant FB policy.
3. PROBLEM SOLVING AND IMPLEMENTATION (25 points): Leader in guiding the conversation to specific and relevant solutions; has achievable and specific plan of action; clearly defines how FB is part of the action plan.
4. COOPERATIVE ATTITUDE (15 points): Active listener; comments on specific ideas mentioned by others and ties them back to the bigger conversation; shows grace, courtesy and respect to others; shows integrity especially when they do not agree.
5. DELIVERY (15 points): Interesting to listen to; animated; appropriate volume and tone; poised; uses gestures and eye contact; confident and clear.
6. CLOSING STATEMENT (15 points): Shows that they have listened to the conversation; develops relevant and realistic plans; memorable; inspires confidence.

A sample score sheet and the rubric are on pages 13-15. Competitors should remember that this is a discussion...not a debate.

Best Practices for Competitors

District Discussion Meets:

*District contests have increased flexibility in both structure and logistics. **Notes are allowed at district-level contests.***

- Make sure to RSVP for your District contest.
- [Check out some videos of Discussion Meets and see what they're like.](#)
- Read up on the topic being discussed (all districts will use the same topic, see pg. 12).
- At the time of the contest:
 - Meet the other competitors and moderator.
 - Ask questions to clarify any instructions that are not clear.
 - Have fun discussing an important ag topic with other Young Farmer members to come to some unique solutions!

Preliminary Virtual Rounds:

- Dress should be business professional.
- Find a location with strong Wi-Fi signal.
 - If possible, plug in to a wired internet source.
 - Ensure that others on your connection are not streaming at the same time as the competitive event to avoid lagging.
 - If you are having trouble finding a location with a strong signal, reach out to your Regional Manager.
- Pay attention to your background. Though you will not be evaluated on your background, find a solid or subtle colored background that will not distract.

- Position your light source in front of you rather than behind or to the side of you. Judges should clearly see your face.
- Find a quiet location to prevent interruptions and background noise. Headphones/earbuds are acceptable if they help minimize distractions and interruptions.
- Practice using Zoom prior to the competition. Take advantage of the practice session to check your connection and settings.
- Acquaint yourself with the topics that will be used. Study as much material as possible related to the topics.

In-Person Sweet Sixteen and Final Four:

- At registration, competitors will receive their name card and room assignments. NOTE: Discussion Meet Registration is NOT at the MFB State Annual Meeting Registration. It's a separate registration located outside Discussion Meet rooms in Devos Place Convention Center – reference location map.
- Arrive early to the competition and ON TIME to the competitor briefing. If you are not in the competitor briefing, you will be disqualified. No Exceptions.
- Dress should be business professional.

During both STATE Virtual & In-Person Discussion Meet Competition:

- Opening Statements:
 - Listen carefully to the other competitors as they make their opening statements.
 - Keep within the time limit of your opening statement. Time will be called by the room chair/moderator if you exceed the time.
 - Notes written prior to the discussion meet start are prohibited.
- During the Discussion:
 - There should be a conflict of ideas, but not of personalities. Remember, this is a discussion, not a debate.
 - Ask questions, state facts and opinions and urge others to be specific.
 - Address your fellow competitors by their first name.
 - Participate whenever it will contribute to furthering the discussion without monopolizing the time.
 - Be enthusiastic and, in general, use logic rather than emotion.
 - Consider providing your personal connection to the topic.

- Provide examples or opportunities within your county Farm Bureau, Michigan Farm Bureau, and American Farm Bureau Federation.
- Make notes of key points as the discussion proceeds; you will use them to develop your summary statement.
- Closing Statement:
 - Use your one minute of silence to organize your summary statement.
 - This should be a summary of the discussion. Considering address the other competitors' input as well as your own.
 - New content should NOT be brought up in your closing statement.
 - Stay within your one-minute time limit. Time will be called by the moderator if you exceed the time.
 - If in-person, stand to make your closing statement.

1. Farmers and ranchers are at the forefront of environmental stewardship. From soil health to local ecosystems, producers are concerned about how to be both environmentally and financially sustainable. How can farmers and ranchers effectively advance environmental stewardship while balancing the needs of their farms?
This question will be used at all district discussion meets.
2. Urban sprawl presents significant challenges for farmers and ranchers, impacting access to land and resources. We see that 1.9 million acres of agricultural land are lost to development each year. How can Farm Bureau help promote responsible growth in communities while mitigating the loss of farms, ranches, and the agrarian way of life?
This is the backup question at district discussion meets, if a second round is needed.
3. Technology has made the world more interconnected than ever, creating new avenues for communication with policymakers. How can digital engagement be leveraged to effectively connect Farm Bureau members with their local, state, and national elected and appointed officials?
4. There are numerous resources available to support seamless farm and ranch succession planning. How can Farm Bureau help increase understanding, access and utilization of tools and resources that help facilitate the smooth transition of land and capital from one generation to the next?
5. Farm Bureau offers a diverse range of member benefits at the state and national levels. What strategies can be implemented to ensure members are fully informed about the savings on products and services available to them? Additionally, how can young farmers and ranchers leverage these industry relationships to strengthen local partnerships and increase utilization of these discounts to keep their operations running smoothly?

All questions will be used during the State Discussion Meet, two during Preliminary Rounds, two during Sweet Sixteen and one for the Final Round.
