Dear Friend of Agriculture,

Monday, June 9, 2025

Many supporters like you have put your trust in our agriculture-focused organization as we provide educational opportunities to youth, award outstanding students, celebrate agriculture accomplishments, and more! It is always an honor for us to facilitate programs and events that provide our community the resources they need to learn where our food comes from, lead our youth into the future of the agriculture industry, and recognize those that have dedicated their time to ensure the success of our programs.

Our fall sponsorship opportunity includes two programs: County Annual Meeting and Agriculture Career Day. As you consider how you support your local community this year, we appreciate your consideration to support one or both of our upcoming programs.

Our **County Annual Meeting** will gather area farmers at Lane View Farm in Cement City to celebrate the past year's programs, recognize young farmers & members for various accomplishments, and set policy to guide the agriculture industry into the future. We are also excited to welcome back young vocalist Hayden Ladd as we support his dreams to pursue his music career. This event will take place on Tuesday, August 26th beginning at 5:00pm.

Did you know that agriculture careers include mechanics, drones, and sales? **Agriculture Career Day** is scheduled for Tuesday, September 16th at Redline Equipment in Litchfield where high school students will learn about various careers that keep the agriculture industry moving forward – careers that are just as vital to the future of farming as planting crops and caring for animals. Last year we tripled our attendance to nearly 300 students from Hillsdale County, Addison, Hudson, and Homer School Districts.

Help us keep the agriculture industry strong for generations to come!

Your farmers,

Kayla Lewis, Pam Wonders, Mark Kline, Jan Sober, Chuck Sigler, Scott Welden, and Ethan Bognar
